Martin Crook

Clinical Biochemistry E-Book William J. Marshall, Márta Lapsley, Andrew Day, Ruth Ayling, 2014-03-05 Essential reading for candidates for the MRCPATH examination and similar postgraduate examinations in clinical biochemistry. The book gives an overview of the acquisition of data, as well as concentrating on clinical aspects of the subject, giving detailed coverage of all conditions where clinical biochemistry is used in diagnosis and management. In common with other diagnostic specialties clinical biochemistry now uses an increasing number of techniques involving the 'new biology': these are covered in this book. It is also increasingly common for medically qualified clinical biochemists to become involved in the clinical management of patients (eg nutritional support) and material on this will be included. - From the author of the popular Clinical Chemistry medical student textbook. - Although there are many competing texts on clinical chemistry, the vast majority concentrate on the technology; this book concentrates on the clinical. - Ideally suited for preparation for the MRCPATH and similar examination. - Expanded sections on haematology and immunology for clinical biochemists provide a thorough understanding of both laboratory and clinical aspects - New chapters are included on important evolving areas such as the metabolic response to stress, forensic aspects of clinical biochemistry and data quality management - An extended editorial team - including three expert new additions - ensures accuracy of information and relevance to current curricula and clinical practice - A superb new accompanying electronic version provides an enhanced learning experience and rapid reference anytime, anywhere! Elsevier ExpertConsult.com Enhanced eBooks for medical professionals Compatible with PC, Mac®, most mobile devices and eReaders, browse, search, and interact with this title - online and offline.
