~~190 see details 100 positive feedback paypal verified the rotel rb 960bx was also not to the~~
touch after preconditioning at 1 3 power its input impedance measured 28k ohms its 8 ohm
gain 27 4db the output impedance was below 0 04 ohm from 20hz to 1khz and rose just slightly
to under 0 55 ohm at 20khz tokyo drift sported many amazing car builds but probably the most
unconventional build would have to be the black 1967 ford mustang with white racing stripes
what makes this car stand out is the fact that it was fitted with a nissan rb26 engine straight
out of an r34 gtr i think the initial release was in 2006 it is basically the amt 1967 mustang gt
fastback a kit that has been re released recently the two major differences are the wheels and
the engine the rb26 engine is decent not great but not bad
