the e36 was the embodiment of the luxury sports sedan and the standard that other manufacturers strived to reach and as such the bmw 3 series became wildly popular with bmw manufacturing 2 67 million e36 cars worldwide from 1992 to 1999 the new e36 featured a more aerodynamic design potent dual overhead cam engine multilink rear suspension and a more luxurious interior than its predecessor the e36 bmw seamlessly blended exhilarating performance with refined appointments and produced a comfortable yet aggressive driving machine that appealed to a wide audience although the stock bmw is a more than capable sports sedan veteran author jeffrey zurschmeide delves into all the different methods for extracting more performance so you can make your e36 even more potent he explains how to

upgrade handling and control through installation of aftermarket coil over springs bushings sway bars and larger brakes producing more power is also a priority so he shows you how to install and set up a cold air intake ignition tuners and exhaust system components you are also guided through work on cylinder heads cams and pistons in addition you re shown the right way to install superchargers and turbo kits if your 3 series is making more power then you need to get that power to the ground guidance is provided for upgrading the transmission and limited slip differentials the bmw 3 series has set the benchmark for performance and luxury but even at this benchmark these cars can be dramatically improved each major component group of the car can be modified or upgraded for more performance so you can build a better car that s balanced and refined if you want to make your e36 a quicker better handling and more capable driving machine this book is your indispensable guide for making it a reality

this is the story of the middle two generations of the 3 series the e36 and

e46 generations by the start of the 1990s the sports sedan was an established car type just like the muscle car minivan or suv this is thanks to bmw which created the class with its first two generations of the 3 series every other car company had to have one especially makers of upscale automobiles therefore bmw had its hands full when it came time to create the third rendition of this class creating car so the company went out and boldly designed and built a completely new car the e36 as the third generation of 3 series is called the car reached a note of perfection in looks handling and choices this was despite the huge corporate problems bmw was having at the time the fourth generation of the 3 series the e46 was much more of a subtle change from the e36 this bit with bmw s philosophy of only making radical changes to its cars every other generation although not much different looking on the outside the newer generation 3 series now had even more features and options for the sports sedan buyer
