with gas prices rising always alternative fuels look like an answer hybrids sound good but what about the batteries and fuel cells still seem to be pie in the sky which leaves us with good old diesel this book shows how to get the most out of the diesel engine at a time when its fuel efficiency is almost as important as its massive torque although most diesel truck owners probably aren't planning to break any land speed records advances in diesel technology such as ultra low sulfur fuel high

pressure common rail fuel injection electronic fuel management and variable geometry turbocharging are bringing diesel engines into the performance arena and this book is the ideal guide for making your diesel engine perform adapting intake and exhaust torque converters engine electronics turbochargers and much more

collision reconstruction methodologies volume 7a the last ten years have seen explosive growth in the technology available to the collision analyst changing the way reconstruction is practiced in fundamental ways the greatest technological advances for the crash reconstruction community have come in the realms of photogrammetry and digital media analysis the widespread use of scanning technology has facilitated the implementation of powerful new tools to digitize forensic data create 3d models and visualize and analyze crash vehicles and environments the introduction of unmanned aerial systems and standardization of crash data recorders to the crash reconstruction community have enhanced the ability of a crash analyst to visualize and model the components of a crash reconstruction because of the technological changes occurring in the industry many sae papers have been written to address the validation and use of new tools for collision reconstruction collision reconstruction methodologies volumes 1 12 bring together seminal sae technical papers surrounding advancements in the crash reconstruction field topics featured in the series include night vision study and photogrammetry vehicle event data recorders motorcycle heavy vehicle bicycle and pedestrian

accident reconstruction the goal is to provide the latest technologies and methodologies being introduced into collision reconstruction appealing to crash analysts consultants and safety engineers alike
