Paul Ekman

Telling Lies: Clues to Deceit in the Marketplace, Politics, and Marriage (Revised Edition) Paul Ekman,2009-01-26 From breaking the law to breaking a promise, how do people lie and how can they be caught? In this revised edition, Paul Ekman, a renowned expert in emotions research and nonverbal communication, adds a new chapter to present his latest research on his groundbreaking inquiry into lying and the methods for uncovering lies. Ekman has figured out the most important behavioral clues to deceit; he has developed a one-hour self-instructional program that trains people to observe and understand micro expressions; and he has done research that identifies the facial expressions that show whether someone is likely to become violent—a self-instructional program to train recognition of these dangerous signals has also been developed. **Telling Lies** describes how lies vary in form and how they can differ from other types of misinformation that can reveal untruths. It discusses how a person’s body language, voice, and facial expressions can give away a lie but still fool professional lie hunters?even judges, police officers, drug enforcement agents, and Secret Service agents.
