perhaps one of the most surprising if not actually unsettling things about the internet and the is that there is always something new on the horizon and that it is very difficult to see where this new technology will take us when ict was just about big computers and organisational systems it was pretty obvious where the technology was moving us we all knew about moore s law and that we were going to have greater capacity smaller and faster devices every year and during the 1990s and the first decade of the third millennium we all became used to what the internet and the had to offer but social software in the form of 2 0 is different it has put technology in the hands of people who we would never have given it a second thought a few years ago leading issues in social knowledge management contains leading edge research which addresses some of the main issues for those of us who want to use social software in a knowledge management context or who want to study it or research it there are 10 research papers as well as an introduction from david gurteen who is a leading thinker in this field what is it that makes certain organizations more successful organization design and its management has long been the fixation of leaders and scholars alike cracking the code to the perfect organizational ecosystem appears to be the dividing line between great success and mediocrity the 21st century launched with great volatility and a level of cultural and global diversity unknown by previous generations this instability demands new approaches and methods for the delivery of products services and ideas we can no longer afford to run organizations with 19th and 20th century ideas the pressures of shifting demographics culture and technology require new approaches to organizational leadership and structures welcome to the era of the open organization the open organization a new era of leadership and organizational development by dr philip a foster is divided into three distinct parts the first explores the foundations of an open organization covering the evolution of leadership and organization theories from the beginning of known time through to the 21st century the second discusses the elements of such an organization presenting the ecosystem of an open system with its structure culture and decision making functions while the third examines the 21st century organization questioning who should go open and reviewing the reality of creating this type of organization understanding control and resistance and addressing the matter of bringing about change innovating professional services provides a practical and detailed guide for change agents and leaders who are seeking to transform their firm s performance through innovation alastair ross draws heavily on his 10 years of applying best practice techniques that created measurable improvements for leading law business service and consulting firms multiple case studies are used to help demonstrate the opportunities and challenges of driving major improvement through innovation read this book to see how it is possible to increase client value and reduce cost the digital revolution has brought with it a wider range of options for creating and producing print

on paper products than ever seen before with the growing demand for skills and knowledge with which to exploit the potential of digital technology comes the need for a comprehensive book that not only makes it possible for production staff editors and designers to understand how the technology affects the industry they work in but also provides them with the skills and competencies they need to work in it smartly and effectively this book is designed to satisfy this need book production falls into two parts the first part deals with the increasingly important role of production as project managers a role which has not been adequately written about in any of the recent literature on publishing the second part deals with the processes and raw materials used in developing and manufacturing print on paper products case studies are used to illustrate why and how some processes or raw materials may or may not be appropriate for a particular job with expert opinions and case studies and a consideration of the practices and issues involved this offers a comprehensive overview of book production for anyone working or training to work in or in conjunction with the books industry this book presents a research thesis of a large scale study conducted with over 50 large organizations in 7 countries with 80 business leaders to understand how businesses speed up the proficiency of their employees to meet business challenges the book describes a start to end research study that explored the concept of accelerated proficiency of employees in organizations the book is organized into five chapters the book introduces the concept of accelerated proficiency in a business context in light of reviews of four decades of classic studies the research methodology to identify sources recruit participants and the mechanism to collect as well as analyze data have been explained in detail the book reveals six business practices implemented by organizations across the board that seem to make a major impact in shortening the time to proficiency of employees important observations and findings have been discussed as implications in regards to how organizations orchestrated six business practices as an input output feedback system to reduce the time to proficiency of the workforce the book briefly explains how these six practices were implemented through a set of twenty four strategies in various contexts the concepts and findings discussed in this book contribute significantly to the body of knowledge on accelerated proficiency in particular the conceptual model and the framework developed in this study can be implemented across a range of contexts business sectors job types and settings to reduce the time to proficiency of the workforce across 40 chapters learners learning and work are situated within educational organisational social economic and political contexts taken together these contributions paint a picture of evolving perspectives of how scholars from around the world view developments in both theory and practice and map the shifts in learning and work over the past two decades this new and engaging core textbook offers a unique line manager perspective that presents students with hrm topics and issues that they will be confronted with once they enter the world of work in a managerial role it is a concise text that focuses on providing students with all they need to know to equip them with a comprehensive understanding of the role the non hr manager plays in the day to day running of an organization the author s deep understanding and wide ranging knowledge of the subject matter means that the text is firmly founded on the latest research while the case

studies topical and international examples and experiential exercises that form a fundamental part of the book ensure that theory is always clearly applied to real world practice this text is an essential companion for mba and postgraduate students who are studying modules on human resource management or managing people but who are non hrm specialists and do not require the exhaustive detail found in other hrm texts it is also suited for use alongside upper level undergraduate modules on these topics on mainstream business degrees many would say that innovation is a major driving force in our economy but they would be wrong perioperative nursing 2e has been written by local leaders in perioperative nursing and continues to deliver a contemporary practical text for australian and new zealand perioperative nurses appropriate for nursing students and graduates entering the perioperative environment perioperative nursing 2e offers a sound foundational knowledge base to underpin a perioperative nursing career this unique text will also be of value to those undertaking postgraduate perioperative studies as well as to more experienced perioperative nurses seeking to refresh their knowledge or expand their nursing practice this essential title examines the roles and responsibilities of nurses working within a perioperative environment providing an overview of key concepts in perioperative care the scope of this book addresses anaesthetic intraoperative and postanaesthetic recovery care as well as day surgery and evolving perioperative practices and environments research boxes where appropriate feature boxes on special populations such as paediatric geriatric and bariatric patients emphasis is placed on the concept of the patient journey working within interprofessional teams communication teamwork patient and staff safety risk management strategies and medico legal considerations now endorsed by acorn aligns with the 2016 acorn and pnc nzno standards reflects the latest national and international standards including the nsqhs standards the new nmba standards for practice for registered and enrolled nurses and the who surgical safety checklist includes two new chapters the perioperative team and interdisciplinary collaboration and perioperative patient safety supporting online resources are available on evolve this book clearly approaches the 21st century skills issue hands on reflective thorough a definite must have for students professionals and he institutions nieke campagne careers policy advisor leiden university the netherlands whether you are about to embark on your business degree programme are already a business student or are a business graduate this book helps you to develop yourself and your career in ways which will benefit you your current and future employers and society focused on developing study and personal skills to enhance your employability it provides insights and practical guidance on developing a skill set and competencies that will be valued by employers including team working critical thinking networking managing emotion and managing technological change self profiling through career and life planning and self presentation through career communication volunteering and internships becoming a global business practitioner able to anticipate economic and cultural change understand a diversity of world views and the idea of global responsibility becoming a responsible and ethical business practitioner embodying virtues and values which are increasingly sought after by employers in line with consumer expectations the first thing i really love about paul dowson s hugely comprehensive book is its

clarity he takes complex themes and turns them into accessible learning outcomes the other thing to love is its humanity it is insightful and borne of a deep concern about how students transition from higher education to working life and citizenship jane artess director of research higher education careers services unit hecsu uk the business innovation and skills committee publishes a report the hargreaves review of intellectual property where next as part of its inquiry into the hargreaves review of intellectual property and growth the committee believes further work remains to be done in analysing whether the economic benefits of a parody exception would be as extensive as claimed however other grounds may yet support a change to the law by extending what is legally permissible which would probably help improve public respect for copyright law in general on content mining the committee agrees that the ability to read published scientific data automatically is useful and needs to be opened up on the the issue of digital copyright exchange the committee encourages the government to push forward with this idea provided that the system is kept simple and there is a proper cost benefit analysis on the government s approach to negotiations on the unified patents court the committee is concerned about the government s approach on this a unified patent and litigation system could bring many benefits particularly if the central court were situated in london but the current proposals have not been welcomed by practitioners or industry leadership limits and possibilities offers a critical discussion of leadership that draws upon a wide range of approaches material and examples to demonstrate the complex and challenging role of leadership and through this debate suggests possible ways to improve as a leader it is structured around 5 key aspects of leadership person product position process and purpose providing a useful organizing framework it combines theoretical discussions with lively examples to bring the subject alive this book explains and critically examines how arts managers from more than 40 countries across the world respond to the various phenomena of globalisation digitalisation and migration it also analyses the manner in which cultural institutions become more international in nature real life case studies and experiences from numerous practitioners as well as an international comparison of those specific challenges and opportunities illuminate how practicing in international and transcultural contexts is now inevitable this book presents the basic concepts theories and terminology required for this kind of work in addition to providing an overview of the daily tasks and challenges involved it will be of interest to practicing and aspiring arts managers who wish to develop a further understanding of the complex way in which the field is developing this book explores a broad range of innovations in education such as flipped classrooms the educational use of social media mobile learning and educational resources it also includes theoretical discussions and practical applications related to the use of augmented reality and educational technologies for improving students engagement and facilitating their future studies and careers featuring case studies and practical applications illustrating the effectiveness of new modes of education in which the latest technologies and innovations are widely used in the global context the book helps readers develop their awareness of the related insights and implications in order to deepen their understanding and stimulate critical thinking as to how new technologies have made learning and teaching easier in

different educational settings this is a book about people in organisations developing love for themselves others communities and nature it offers an opportunity to see afresh to envisage courageously and to position yourself differently to bring hearts minds and wills to bear on the world around us the life we live inside our organisations influences every other part of our lives here is a way to embrace the philosophy and practice of becoming a virtuous organisation and giving a dazzling performance the book helps you to define where you are in your current experience of your organisation and how you can shift things within yourself and around you this is more than an adaptive or compliance process it is about necessary compelling and radical change and the authors show how it can and has been done seeing the need arriving at the right values aligning individual and organisation values determining appropriate behaviour indicators entrenching the values so that they become spontaneously lived virtues the mind set methods and techniques used during the process are important in each of these steps especially the last where precious few have succeeded virtues drawn from the life and works of leonardo da vinci and which span all cultures and generations illustrate what is possible the book includes 1 choosing and prioritising values 2 how are you living your personal values 3 are we a congruent organisation 4 using anecdote circles to find out what shape your business is in 5 personal mindfulness checklist 6 do we have organisational blind spots 7 journaling 8 what shadow side factors should we be aware of in our organisation 9 how integrated are we as an organisation 10 the seeds of love 11 ethical behaviour 12 putting balance into the balance scorecard 13 readiness for the journey through contributions from leading organisation development practitioners with unparalleled experience a field guide for organisation development answers four questions what is od and why does it matter where does od fit and who does it how do you actually do od how do you know if it s worked and prove the benefit this book provides a bridge between the theory and history of od and the actual work of those practicing it in the field it is as comprehensive a resource to support the practice of organisation development as can be found anywhere in our progressively changing environment it is of crucial importance to deepen our understanding of peace between people and how leadership can enhance that by leading for peace this book proposes a useful framework for all leaders including business political leaders and peace developers on how to attain peace between people the book is presented in four sections 1 peace leadership in perspective discussions on the nature and meaning of peace leadership important building blocks for peace leadership emotional social and communal intelligence and a peace leadership in action model which forms the basis of the book 2 implementation strategies focus on lead self lead with others and lead communities lead self includes leading peace through self others and the community the role of wisdom and spirituality in leading self and others and individual social and cultural inertia preventing humanity from attaining peace lead others includes leadership theories which support peace leadership the improvement of cultural intelligence amongst peace leaders and women s role in peace building lead communities includes peace leadership in the public and private sectors healthcare for the vulnerable and its meaning and contribution towards peace leadership and working from helplessness to serving the community 3 tools

and initiatives to become a highly effective peace leader including information and communication technological innovations for peace leaders and sport as a tool for peace building 4 concluding thoughts concluding thoughts are given with the emphasis on what we have learned and looking ahead this editorial book provides a significant contribution within the emerging peace leadership discipline as the international community non governmental organisations and the public and private sectors struggle to formulate sustainable peace initiatives at the tribal local and communal societal level niveau b1 englisch üben lesen schreiben b1 fertigkeitentrainer mit abwechslungsreichen kontextualisierten Übungen zu b1 typischen schreibanlässen z b zuordnungsübungen textpuzzle multiple choice varianten schreiben schreib baukasten gesteuerte schriftliche Übungen authentische texte und Übungen zu themen wie familie und gesellschaft arbeitswelt reisen medien technik und umwelt die zum lesen anregen und das lesen trainieren praxisnahe Übungen zum leseverständnis mit lösungsschlüssel im anhang ideal zur prüfungsvorbereitung und als ergänzung im unterricht resilient health leveraging technology and social innovations to transform healthcare for covid 19 recovery and beyond presents game changing and disruptive technological innovations and social applications in health and mental health care around the world for the post covid age and beyond addressing the urgent need for care in this first of its kind comprehensive volume experts and stakeholders from all sectors government and the public and private sectors offer models and frameworks for policy programming and financing to transform healthcare address inequities close the treatment gap and build back better especially for under resourced vulnerable communities globally to leave no one behind and advance development globally contributions from world experts cover 8 essential parts the context and challenges for resilient health systems to shape the future developments and directions ai vr mr ivas and more an innovations toolbox also targeted for special populations and settings women youth ageing migrants disabled persons indigenous peoples in the workplace the role of stakeholders governments the public and private sector forums and networks innovative financing resources lessons learned and the way forward addresses the hot topic today in the ever emerging landscape of disruptive digital healthcare delivery covering critical issues and solutions in digital health big data and artificial intelligence as well as benefits and challenges and ethical concerns provides case examples of transformative and radical solutions to urgent health needs especially in remote low resource settings as well as in less well covered regions of central and south america and mena middle east and north africa positions health innovations at the nexus of the global framework of universal health coverage and of the united nations sustainable developing goals to achieve sdg3 good health and well being at the intersection with climate action gender equality quality education eradication of poverty and hunger sustainable cities environmental protection and others serves as an exceptional resource reference teaching tool and guide for all stakeholders including civil society and ngos government think tanks investors academia researchers and practitioners product developers and all policymakers and programmers involved in planning and delivering healthcare including an extensive section of resources in the digital health space in various categories like publications conferences and collaboratives provides

examples of and encourages multi stakeholder partnerships essential to re imagine health systems delivery and access and to achieve intended healthcare objectives social media has fundamentally changed communication and interaction in today s society apart from being used by individuals it is also omnipresent in public sector organisations such as the armed forces this book examines the opportunities and risks associated with social media in the context of the armed forces from an international social scientific perspective it discusses the impact of social media in the everyday life of military personnel and analyses the extent to which social media influences their performance be it as a distraction or as a source of perceived appreciation it particularly highlights the representation of masculinity and femininity in military social media channels since the way gender is portrayed on social media has an effect on how future recruits and at the other end of the military career spectrum veterans feel they are approached the book also focuses on the new form of follow up discussion which enables the armed forces to interact with the population on social media the armed forces are publicly presented and this shapes the public s opinions on them further the armed forces can use debates as a monitoring tool of society s attitudes towards them or towards events that have an effect on society conversely social media can lend a voice to military personnel allowing them to be publicly heard as discussions on social media can only be controlled to a limited extent the context in which the armed forces are discussed alters their sphere of influence and potentially leads to a loss of control an extreme example of this is the use of social media as a tool to strategically distribute misinformation in order to shape public opinion and threaten national security moreover the use of social media to demoralise adversaries or to harm their credibility results in social media being considered a cyber weapon that affects politics and military activities essential reading about a notoriously difficult problem how abusive professionals manipulate their clients and what we as organizations and individuals can do about it professional sexual misconduct psm is a problem that is notoriously difficult to address and that can be a minefield for all concerned for victims for the institutions where it takes place and also because outstanding and supposedly responsible members of society may be accused of abuse here werner tschan one of the world s leading experts on the prevention of psm outlines an up to date approach to psm and other professional disruptive behaviors he describes practical ways to prevent psm as well as effective treatments for victims and those accused using examples from real life cases from around the world he also discusses how psm is a societal problem and what we can do to stop it recent headline cases involving a variety of organizations medical media church schools sport industry show that institutions can be ideal environments for psm and so great emphasis is placed in this volume on preventive measures that we can and must take at an institutional level with clear jargon free writing this book is essential reading for all professionals interested in preventing and dealing with psm as well as of interest to victims and their families as well brooks offers readers a succinct lively and robust introduction to the subject of organisational behaviour while aiming to encourage and promote the critical examination of the theory of organisational behaviour this book also seeks to enable students to interpret and deal with real organisational problems this new edition has

major changes to the text to embrace international contexts and the modern realities of ob it has proved a popular student choice because it combines relative brevity with thorough coverage and plentiful real world examples popular features for today's organisational behaviour course include more prominent organisational theory coverage this key topic has been moved forward to provide students with an overview of the different ways ob can be looked at early on in the book more coverage of modern communications technologies cross cultural management generational change and the gig economy new and updated case studies and 'managerial implications' boxes help to broaden students' knowledge and understanding of ob in real organisations 'illustration in film' boxes illustrate key ideas through famous films such as 12 angry men and the devil wears prada stress is defined as a feeling experienced when a person perceives that demands exceed the personal and social resources the individual is able to mobilize it can occur due to environmental issues such as a looming work deadline or psychological for example persistent worry about familial problems while the acute response to life threatening circumstances can be life saving research reveals that the body's stress response is largely similar when it reacts to less threatening but chronically present stressors such as work overload deadline pressures and family conflicts it is proffered that chronic activation of stress response in the body can lead to several pathological changes such as elevated blood pressure clogging of blood vessels anxiety depression and addiction organizational stress around the world research and practice aims to present a sound theoretical and empirical basis for understanding the evolving and changing nature of stress in contemporary organizations it presents research that expands theory and practice by addressing real world issues across cultures and by providing multiple perspectives on organizational stress and research relevant to different occupational settings and cultures personal occupational organizational and societal issues relevant to stress identification along with management techniques approach to confront stress and its associated problems at individual and organizational level are also explored it will be of value to researchers academics practitioners and students interested in stress management research this book revisits the theory of social systems as a defence against anxiety first set out by elliot jaques and isabel menzies lyth in papers which they published in 1955 and 1960 and which have been influential points of reference ever since menzies lyth's study of the nursing system of a general hospital with its roots in both psychoanalysis and socio technical systems thinking has remained one of the most convincing demonstrations of the influence of unconscious anxieties on social behaviour and of their effects in inducing dysfunctional defensive systems in organisations the theory of social defences against anxiety remains one of the most significant contributions of the Tavistock school to the study of human relations contributors explore this theory as a generative paradigm capable both of theoretical extension and of empirical application to different institutional settings they review changes which have taken place in the theoretical and social context since these ideas were first advanced and assess what conceptual revisions these developments require the present book reveals the importance of preventive medicine in cardiology and public health addressing the lack of a broad discussion of this topic in the current literature it

examines the most important risk factors for different cardiovascular diseases discussing them in detail from a clinical standpoint and presenting important information from a preventive medicine perspective further specific chapters discuss the burden of cardiologic risk factors in special contexts such as in women child and adolescents and in low income populations lastly a number of conditions that are often overlooked in terms of their cardiological impact are discussed such as chagas disease rheumatic cardiomyopathy and post traumatic stress disorder cardiovascular diseases are still the major cause of death in the world even though they are considered preventable clinical conditions the increased prevalence of some risk factors for cardiovascular diseases is an important concern for cardiologists around the world on the other hand primary prevention programs have proven their efficacy concerning some known and treatable risk factors such as with hypercholesterolemia hypertension diabetes and smoking but still need to be made more of a priority in public health prevention of cardiovascular diseases is a book intended for multi disciplinary audience and aimed for all professionals who are willing to face the challenge of cardiovascular prevention why ted how great leaders inspire action what why music schools in changing societies addresses the need to understand instrumental and vocal pedagogy beyond the individual sphere of teacher student interactions and psychological phenomena focusing instead on the wider sociocultural spatial and institutional contexts of music education viewing music education through the perspective of collaboration the book focuses on the context of european music schools which have developed a central role in publicly funded educational and cultural systems the authors demonstrate that multilevel collaboration is a vital part of how music educators and the schools where they work can respond to wider societal concerns in ways that improve educational quality presenting examples of innovative practices and collaborative settings from twelve european countries this book offers new and inspiring perspectives on how music schools can support the transformation towards collaborative professionalism in instrumental and vocal music education with contributions from a wide range of researchers and professional educators the book shows how a collaborative approach to music education can address major policy issues such as inclusion democracy and sustainability addressing current institutional and curricular challenges music schools in changing societies presents a unique outlook on how music schools in contemporary societies can survive and thrive in times of change a curious ambiguity surrounds errors in professional working contexts they must be avoided in case they lead to adverse and potentially disastrous results yet they also hold the key to improving our knowledge and procedures in a further irony it seems that a prerequisite for circumventing errors is our remaining open to their potential occurrence and learning from them when they

do happen this volume the first to integrate interdisciplinary perspectives on learning from errors at work presents theoretical concepts and empirical evidence in an attempt to establish under what conditions professionals deal with errors at work productively in other words learn the lessons they contain by drawing upon and combining cognitive and action oriented approaches to human error with theories of adult professional and workplace learning this book provides valuable insights which can be applied by workers and professionals it includes systematic theoretical frameworks for explaining learning from errors in daily working life methodologies and research instruments that facilitate the measurement of that learning and empirical studies that investigate relevant determinants of learning from errors in different professions written by an international group of distinguished researchers from various disciplines the chapters paint a comprehensive picture of the current state of the art in research on human fallibility and learning from errors at work this handbook maps the expanding field of gender and eu politics giving an overview of the fundamentals and new directions of the sub discipline and serving as a reference book for gender scholars and students at different levels interested in the eu in investigating the gendered nature of european integration and gender relations in the eu as a political system it summarizes and assesses the research on gender and the eu to this point in time identifies existing research gaps in gender and eu studies and addresses directions for future research distinguished contributors from the us the uk and continental europe and from across disciplines from political science sociology economics and law expertly inform about gender approaches and summarize the state of the art in gender and eu studies the routledge handbook of gender and eu politics provides an essential and authoritative source of information for students scholars and researchers in eu studies politics gender studies politics political theory comparative politics international relations political and gender sociology political economy european and legal studies law job creation and green growth are top political priorities in all nordic countries new jobs will be created in existing companies and organizations but a significant number of new jobs will have to be created in new companies based on new technologies and new business models at the same time the nordic countries have all set ambitious targets for reductions in carbon emissions and pledged to transform to a low carbon economy the green transition is a challenging task but does also represent major business opportunities new companies are developed by innovative entrepreneurs throughout the nordics they need access to relevant competent risk capital to grow to create value and new jobs 8 30

Perioperative Nursing - EBook-epub

2016-03-15

this book clearly approaches the 21st century skills issue hands on reflective thorough a definite must have for students professionals and he institutions nieke campagne careers policy advisor leiden university the netherlands whether you are about to embark on your business degree programme are already a business student or are a business graduate this book helps you to develop yourself and your career in ways which will benefit you your current and future employers and society focused on developing study and personal skills to enhance your employability it provides insights and practical guidance on developing a skill set and competencies that will be valued by employers including team working critical thinking networking managing emotion and managing technological change self profiling through career and life planning and self presentation through career communication volunteering and internships becoming a global business practitioner able to anticipate economic and cultural change understand a diversity of world views and the idea of global responsibility becoming a responsible and ethical business practitioner embodying virtues and values which are increasingly sought after by employers in line with consumer expectations the first thing i really love about paul dowson s hugely comprehensive book is its clarity he takes complex themes and turns them into accessible learning outcomes the other thing to love is its humanity it is insightful and borne of a deep concern about how students transition from higher education to working life and citizenship jane artess director of research higher education careers services unit hecsu uk

Personal and Professional Development for Business Students

2015-03-16

the business innovation and skills committee publishes a report the hargreaves review of intellectual property where next as part of its inquiry into the hargreaves review of intellectual property and growth the committee believes further work remains to be done in analysing whether the economic benefits of a parody exception would be as extensive as claimed however other grounds may yet support a change to the law by extending what is legally permissible which would probably help improve public respect for copyright law in general on content mining the committee agrees that the ability to read published scientific data automatically is useful and needs to be opened up on the the issue of digital copyright exchange the committee encourages the government to push forward with this idea provided that the system is kept simple and there is a proper cost benefit analysis on the government s approach to negotiations on the unified patents court the committee is concerned about the government s approach on this a unified patent and litigation system could bring many benefits particularly if the central court were situated in london but the current proposals have not been welcomed by practitioners or industry

Peace Leadership

2018-10-01

social media has fundamentally changed communication and interaction in today s society apart from being used by individuals it is also omnipresent in public sector organisations such as the armed forces this book examines the opportunities and risks associated with social media in the context of the armed forces from an international social scientific perspective it discusses the impact of social media in the everyday life of military personnel and analyses the extent to which social media influences their performance be it as a distraction or as a source of perceived appreciation it particularly highlights the representation of masculinity and femininity in military social media channels since the way gender is portrayed on social media has an effect on how future

recruits and at the other end of the military career spectrum veterans feel they are approached the book also focuses on the new form of follow up discussion which enables the armed forces to interact with the population on social media the armed forces are publicly presented and this shapes the public's opinions on them further the armed forces can use debates as a monitoring tool of society's attitudes towards them or towards events that have an effect on society conversely social media can lend a voice to military personnel allowing them to be publicly heard as discussions on social media can only be controlled to a limited extent the context in which the armed forces are discussed alters their sphere of influence and potentially leads to a loss of control an extreme example of this is the use of social media as a tool to strategically distribute misinformation in order to shape public opinion and threaten national security moreover the use of social media to demoralise adversaries or to harm their credibility results in social media being considered a cyber weapon that affects politics and military activities

stress is defined as a feeling experienced when a person perceives that demands exceed the personal and social resources the individual is able to mobilize it can occur due to environmental issues such as a looming work deadline or psychological for example persistent worry about familial problems while the acute response to life threatening circumstances can be life saving research reveals that the body's stress response is largely similar when it reacts to less threatening but chronically present stressors such as work overload deadline pressures and family conflicts it is proffered that chronic activation of stress response in the body can lead to several pathological changes such as elevated blood pressure clogging of blood vessels anxiety depression and addiction organizational stress around the world research and practice aims to present a sound theoretical and empirical basis for understanding the evolving and changing nature of stress in contemporary organizations it presents research that expands theory and practice by addressing real world issues across cultures and by providing multiple perspectives on organizational stress and research relevant to different occupational settings and cultures personal

occupational organizational and societal issues relevant to stress identification along with management techniques approach to confront stress and its associated problems at individual and organizational level are also explored it will be of value to researchers academics practitioners and students interested in stress management research

Professional Sexual Misconduct in Institutions

2013-10-01

this book revisits the theory of social systems as a defence against anxiety first set out by elliot jaques and isabel menzies lyth in papers which they published in 1955 and 1960 and which have been influential points of reference ever since menzies lyth s study of the nursing system of a general hospital with its roots in both psychoanalysis and socio technical systems thinking has remained one of the most convincing demonstrations of the influence of unconscious anxieties on social behaviour and of their effects in inducing dysfunctional defensive systems in organisations the theory of social defences against anxiety remains one of the most significant contributions of the tavistock school to the study of human relations contributors explore this theory as a generative paradigm capable both of theoretical extension and of empirical application to different institutional settings they review changes which have taken place in the theoretical and social context since these ideas were first advanced and assess what conceptual revisions these developments require

Organisational Behaviour

2018-02-16

the present book reveals the importance of preventive medicine in cardiology and public health addressing the lack of a broad discussion of this topic in the current literature it examines the most important risk factors for different cardiovascular diseases discussing them in detail from a clinical standpoint and presenting important information from a preventive medicine perspective further specific chapters discuss the burden of cardiologic risk factors in special contexts such as in women child and adolescents and in low income populations lastly a number of conditions that are often overlooked in terms of their cardiological impact are discussed such as chagas disease rheumatic cardiomyopathy and post traumatic stress disorder cardiovascular diseases are still the major cause of death in the world even though they are considered preventable clinical conditions the increased prevalence of some risk factors for

cardiovascular diseases is an important concern for cardiologists around the world on the other hand primary prevention programs have proven their efficacy concerning some known and treatable risk factors such as with hypercholesterolemia hypertension diabetes and smoking but still need to be made more of a priority in public health prevention of cardiovascular diseases is a book intended for multi disciplinary audience and aimed for all professionals who are willing to face the challenge of cardiovascular prevention

music schools in changing societies addresses the need to understand instrumental and vocal pedagogy beyond the individual sphere of teacher student interactions and psychological phenomena focusing instead on the wider sociocultural spatial and institutional contexts of music education viewing music education through the perspective of collaboration the book focuses on the context of european music schools which have developed a central role in publicly funded educational and cultural systems the authors demonstrate that multilevel collaboration is a vital part of how music educators and the schools where they work can respond to wider societal concerns in ways that improve educational quality presenting examples of innovative practices and collaborative settings from twelve european countries this book offers new and inspiring perspectives on how music schools can support the transformation towards collaborative professionalism in instrumental and vocal music education with contributions from a wide range of researchers and professional educators the book shows how a collaborative approach to music education can address major policy issues such as inclusion democracy and sustainability

addressing current institutional and curricular challenges music schools in changing societies presents a unique outlook on how music schools in contemporary societies can survive and thrive in times of change

General Issue

2007

a curious ambiguity surrounds errors in professional working contexts they must be avoided in case they lead to adverse and potentially disastrous results yet they also hold the key to improving our knowledge and procedures in a further irony it seems that a prerequisite for circumventing errors is our remaining open to their potential occurrence and learning from them when they do happen this volume the first to integrate interdisciplinary perspectives on learning from errors at work presents theoretical concepts and empirical evidence in an attempt to establish under what conditions professionals deal with errors at work productively in other words learn the lessons they contain by drawing upon and combining cognitive and action oriented approaches to human error with theories of adult professional and workplace learning this book provides valuable insights which can be applied by workers and professionals it includes systematic theoretical frameworks for explaining learning from errors in daily working life methodologies and research instruments that facilitate the measurement of that learning and empirical studies that investigate relevant determinants of learning from errors in different professions written by an international group of distinguished researchers from various disciplines the chapters paint a comprehensive picture of the current state of the art in research on human fallibility and learning from errors at work
