2007-05-23

constitutionalism under stress reflects on comparative constitutionalism in central and eastern europe through the work of eminent constitutional scholar wojciech sadurski the book examines the current decline of liberal democracies and populist challenges to the rule of law in the region events that sadurski predicted early on in his writings about jörg haider affair in austria and the introduction of article 7 teu by the amsterdam treaty sadurski s work has chronicled the transition from concern for the most basic of human rights under authoritarian rule to the challenges of democratic governance the compelling rights discourse of an earlier period gave way to claims of abuse of majoritarian prerogatives as the hopes of liberal democracy encountered the power of illiberalism the theoretical responses offered for the preservation of liberal democracy in light of the current turbulence regarding the rule of law in the region produces a far reaching and effective reference tool on matters of constitutional capture and illiberal democracy

# Equality and Liberty

2016-07-27

intellectual property rights conventionally seen as quite distinct are increasingly overlapping with one another there are several reasons for this the expansion of iprs beyond their traditional borders the creation of new iprs especially at eu level the exploitation of gaps in the law by shrewd lawyers and the use of unfair competition as an alternative when iprs are either not available at all or expired the convergence of several iprs on the same subject matter poses problems as they are normally envisaged as water tight categories there are very few rules which cater for the sort of regime clash that any overlap of iprs necessarily entails this book s aim is to find appropriate rules to regulate overlaps and thereby avoid regime conflicts and undue unstructured expansion of iprs the book studies the practical consequences of each overlap at the international european and national levels where the laws of france the uk and germany are reviewed it then analyses the reasons for the prohibition or authorisation of overlaps this analysis enables the determination of criteria and principles that can be used to re map the overlaps to achieve appropriateness and legitimacy

1987

leif wenar s 2016 book blood oil tyrants violence and the rules that run the world argues that much of the conflict suffering and injustice in the world is driven by an archaic rule in global trade that forces consumers to fund oppression and corruption this oil curse is a major threat to global peace and stability wenar sets out clean trade policies to lift the oil curse through national legislation that affirms democratic principles in beyond blood oil wenar summarizes and extends his views setting the stage for five essays from first class critics from the fields of political theory philosophy and energy politics wenar replies vigorously and frankly to the critics making the volume the scene of a highly energetic debate that will benefit all scholars students and global citizens interested in global justice international security oil politics fair trade climate change and progressive reforms

## Beyond Blood Oil

2018-09-05

beyond the barricades is an original study of  
government after the 1848 revolutions it focuses  
on the state of prussia where a number of  
conservative ministers sought to learn lessons  
from their experiences of upheaval and introduce a  
wave of reform in the 1850s using extensive  
archival research the work explores prussia s  
entry into the constitutional age charting  
initiatives to transform criminal justice  
agriculture industry communications urban life and  
the press reform strengthened contact with the  
prussian population making this a classic episode  
of state building but beyond the barricades seeks  
to go further it makes a case for taking notice of  
government activity at this particular juncture  
because the measures endorsed by conservative  
statesmen in the 1850s sought to remove the feudal  
intermediaries that had lingered long into the  
nineteenth century and replace them with

new regime of international criminal justice has had on countries where the most serious crimes have been committed in drawing together these discussions the book provides a significant contribution in assessing how the icc s practice could be refined or improved in future cases the book will be of great use and interest to international criminal law and public international law

## Cosmopolitan Responsibility

2019-11-18

today s copyright wars can seem unprecedented sparked by the digital revolution that has made copyright and its violation a part of everyday life fights over intellectual property have pitted creators hollywood and governments against consumers pirates silicon valley and open access advocates but while the digital generation can be forgiven for thinking the dispute between for example the publishing industry and google is completely new the copyright wars in fact stretch back three centuries and their history is essential to understanding today s battles the copyright wars the first major trans atlantic history of copyright from its origins to today tells this important story peter baldwin explains why the copyright wars have always been driven by a fundamental tension should copyright assure authors and rights holders lasting claims much like conventional property rights as in continental europe or should copyright

primarily concerned with giving consumers cheap and easy access to a shared culture as in Britain and America the Copyright Wars describes how the continental approach triumphed dramatically increasing the claims of rights holders the book also tells the widely forgotten story of how America went from being a leading copyright opponent and pirate in the eighteenth and nineteenth centuries to become the world's intellectual property policeman in the late twentieth as it became a net cultural exporter and its content industries saw their advantage in the continental ideology of strong authors rights the United States reversed position on copyright weakening its commitment to the ideal of universal enlightenment a history that reveals that today's open access advocates are heirs of a venerable American tradition compelling and wide ranging the Copyright Wars is indispensable for understanding a crucial economic cultural and political conflict that has reignited in our own time
