this volume describes the underlying assumptions that are made in devising the most commonly used measures of business unit performance it analyzes the strengths and weaknesses of various approaches the book also presents a more radical approach involving the use of dcf based measures and considers how accounting information can be usefully supplemented by other sources of information particularly in the context of the divisionalized organization the rigorous analysis gives a balanced account of the main problems encountered in using each approach the conclusions presented in business unit and divisional performance measurement provide a firm foundation upon which a sound management control system can be erected key features analyses the strengths and weakness of various approaches considers how accounting information can be usefully supplemented by other sources of information advances a more radical approach involving the use of dcf based measures

## **Business Unit & Divisional Performance Measurement**

1992

today s profound environmental dynamics render it increasingly difficult for firms to sustain business models with returns above the industry average business model innovation aims to seize a new opportunity by crafting the right new business model it offers firms a path back to high returns and profitable growth however risk aversion and organizational rigidities may immobilize established industry players martin trapp employs an explorative multiple case study covering large european corporations to identify management practices these practices support business unit managers in successfully realizing business model innovation and together establish a deliberate strategic level management approach

## **Realizing Business Model Innovation**

2014-02-06

in recent years there has been much debate on the new business oriented role of management accountants also called controllers the purpose of this paper is to investigate to what extent the involvement of the business unit bu controller in the decision making process

of business units is impacted not only by organizational factors but also by the personal characteristics of bu controllers this exploratory study provides further insight into the various roles of bu controllers survey data from 119 bu controllers in dutch multidivisional organizations indicate that controller involvement in management cim takes two different forms cim in strategic decisions and cim in operating decisions cim by bu controllers in strategic decisions is positively related to the degree of decentralization and the stability of performance of the business unit cim in strategic decisions is also positively related to more extravert bu controllers the degree of cim in operating decisions is related to interdependencies between business units and to strict hierarchical relationships between bu controllers and their bu managers or the corporate controller cim in operating decisions is positively related to bu controllers who are open to new experience but negatively related to bu controllers who are tolerant and accepting towards others this study shows that the personal characteristics of bu controllers do actually matter in cim in both strategic and operating decisions

## **Strategies for Growth**

2001

international operations management lessons in global business uses a fascinating selection of case studies researched during the international operations management project sponsored by the european commission to produce a valuable view of businesses in western and eastern traditions ranging from china post and flextronics international singapore to electrolux ford and glaxosmithkline the studies link conceptual and practical approaches in five areas international operations management strategy sourcing and manufacturing new product development logistics and networked organisations throughout the authors compare the western and eastern approaches to business and introduce theory to clarify the comparison and the real consequences of internationalisation with its balance of theoretical and applied content this volume created from an exciting collaboration between universities and schools of management in europe and china serves as both a primary and supplementary source for higher level students and educators and as a worthwhile read for interested practitioners

## ***Business Unit Controller Involvement in Management***

2008

we study the determinants of organizational slack in large decentralized firms and focus in particular on how management accounting systems represented by business unit controllers affect slack we rely on an adverse selection model to derive several predictions and to motivate our tests consistent with this framework we find that organizational slack measured by achievability of business unit managers performance targets is higher in settings where business unit controllers focus relatively more on providing decision making information to business unit managers than on providing information for corporate control we also find that organizational slack is persistent over time and positively associated with business unit growth our proxy for the extent of information asymmetry between corporate headquarters and local business unit management
