Сбежавшие мысли Анастасия Шушакова, 2022-05-15 Нас окружает громадный поток информации. Мы постоянно думаем о чём-то. Рассуждаем о смысле жизни, мечтаем, анализируем события в мире. Мои мысли сбежали от меня и воплотились в этом сборнике. Иногда, перечитывая его, я не понимаю сама себя. Почему именно такой распорядок рассказов? В чём заключается смысл тех или иных строк? Кажется, рассказы живут своей жизнью отдельно от меня. Иногда они рождались совсем спонтанно, а на некоторые у меня уходило несколько дней. Переживать жизни всех этих персонажей – невероятно! И так, эта работа длиною примерно в год наконец-то материализовалась и завершилась. Она нашла своё место в жизни.

The Analysis and Design of Linear Circuits Roland E. Thomas, Albert J. Rosa, Gregory J. Toussaint, 2020-07-15 While most texts focus on how and why electric circuits work, *The Analysis and Design of Linear Circuits* taps into engineering students' desire to explore, create, and put their learning into practice. Students from across disciplines will gain a practical, in-depth understanding of the fundamental principles underlying so much of modern, everyday technology. Early focus on the analysis, design, and evaluation of electric circuits promotes the development of design intuition by allowing students to test their designs in the context of real-world constraints and practical situations. This updated Ninth Edition features an emphasis on the use of computer software, including Excel, MATLAB, and Multisim, building a real-world problem-solving style that reflects that of practicing engineers. Software skills are integrated with examples and exercises throughout the text, and coverage of circuit design and evaluation, frequency response, mutual inductance, ac power circuits, and other central topics has been revised for clarity and ease of understanding. With an overarching goal of instilling smart judgement surrounding design problems and innovative solutions, this unique text provides inspiration and motivation alongside an essential knowledge base.

Why Art Criticism? A Reader Julia Voss,Beate Söntgen,2022-04-20 How is art criticism to be understood within an expanding artistic field? A look at its history and its manifestations within globalized conditions shows the variety of the genre, of the criteria and of the styles of writing. This reader is an attempt to bring a diverse range of art-critical voices and perspectives into conversation with each other, with texts from the 18th century to the present. The editors Beate Söntgen and Julia Voss have invited colleagues from various geographical and intellectual backgrounds to present and discuss the art critics of their choice, choosing one example from their respective bodies of work to comment upon. How have these writers approached art criticism? Which styles do they employ? What makes them extraordinary? What can we learn from their writings today, and why is it important in its contemporary context? BEATE SÖNTGEN (*1963) is professor of art history at Leuphana University Lüneburg. She studied art history, philosophy, and modern German literature in Marburg and Berlin. She is director of the DFG Research Training Group Cultures of Critique: Forms, Media, Effects and co-director of the program PriMus - Doctoral Studies in Museums. JULIA VOSS (*1974) is an honorary professor at Leuphana University Lüneburg. She studied art history, modern German literature, and philosophy in Berlin and London. She is herself an art critic and journalist and was deputy head of the arts section of the Frankfurter Allgemeine Zeitung.

Strongest Chef System Wei Cheng,2020-05-07 Lin Feng, who sold small pancakes, got a miraculous stone and menu by accident. Afterwards, the already famous pancake stand in the University City became filled with more customers. Relying on the magical power of the stone and the menu, Lin Feng first subdued the bullies that often bullied people around the Higher Education Mega Centre, then completed his own little dream and set up a small restaurant with his dependent sister, Lin Xin. Afterwards, he obtained a mystical system that continuously completed all the quests given by the system, ranging from catching chickens to making pancakes to winning the Master Chef Competition. In between, Lin Feng got to know many good partners. Finally, with the help of the system and with enough effort from Lin Feng himself, Lin Feng overcame many threats and difficulties, harvesting smiles and tears, friendship and love, his career and family, he reached the pinnacle of his life!
