Just a Job?

2009-11-12

from cartoons to boardrooms comes the statement it's not personal it's just business just a job communication ethics and professional life offers a provocative perspective on ethics at work the book questions the notions that doing ethics at work has to be work and that work is somehow a sphere where a different set of rules applies this problematic line between work and life runs through the ways we commonly talk about ethics from our personal relationships to the domains of work including the organization the profession and the market talk about ethics is far more than just talk and this book shows how and why it matters drawing from the fields of communication and rhetoric the authors show how the very framing of ethics even before we approach specific decisions limits the potential roles of ethics in our work lives and the pursuit of happiness and treats it as something that is meaningful only at special moments such as when faced with dilemmas or as the last chapter in a business book separating ethics from life we put it beyond our daily reach the authors argue against ethical myopia limited to spectacular scandals or comprehensive professional codes instead they propose a master reframe of ethics based on a new take on virtue ethics including aristotle's practical ideal of eudaimonia or flourishing which tells new stories about the ordinary as well as extraordinary aspects of professional integrity and success by reframing ethics as not special they elevate it to its rightful position in work and personal life

Career Movies

2010-01-01

achieving the american dream became inextricably linked with career business success after world war ii as an increasingly consumerist america learned to define the dream through possessions and status not surprisingly hollywood films in the postwar years reflected the country's preoccupation with work and career success offering both dramatic and comedic visions of the career quest and its effects on personal fulfillment family relations women's roles and the creation or destruction of just and caring communities in this book jack boozar argues that the career business film achieved such variety and prominence in the years between 1945 and 2001 that it should be considered a legitimate film genre analyzing numerous well known films from the entire period he defines the genre as one in which a protagonist strives for career success that often proves to be either elusive despite hard work or unfulfilling despite material rewards and status boozar also explores several distinct subgenres of the career movie the corporate executive films of the 1950s the career struggles of single married and or parenting women the entrepreneurial film as it is also embodied in texts about immigrants and racial and ethnic minorities and business oriented femmes fatales the explosion of promotionalism and the corporatization of
