jonathan ward takes the reader deep into the facilities
at kennedy space center to describe nasa s first
computer systems used for spacecraft and rocket
checkout and explain how tests and launches proceeded
descriptions of early operations include a harrowing
account of the heroic efforts of pad workers during the
apollo 1 fire a companion to the author s book
countdown to a moon launch preparing apollo for its
historic journey this explores every facet of the
facilities that served as the base for the apollo
saturn missions hundreds of illustrations complement
the firsthand accounts of more than 70 apollo program
managers and engineers the era of the apollo saturn
missions was perhaps the most exciting period in
american space exploration history cape canaveral and
kennedy space center were buzzing with activity
thousands of workers came to town to build the
facilities and launch the missions needed to put an
american on the moon before the end of the decade work
at ksc involved much more than just launching rockets
it was a place like none other on earth technicians
performed intricate operations and hazards abounded

everywhere including lightning fire highly toxic fuels
snakes heat explosives lox spills and even plutonium
the reward for months of 7 day workweeks under intense
pressure was witnessing a saturn v at liftoff for
anyone who ever wished they had worked at kennedy space
center during the apollo era this book is the next best
thing the only thing missing is the smell of rocket
fuel in the morning
