I recommend this book as an introduction to new educators involved in clinical teaching.--Journal for Nurses in Staff Development This textbook presents a comprehensive framework for planning, guiding, and evaluating learning activities for undergraduate and graduate nursing students in clinical settings. The book presents clinical teaching strategies that are effective and practical in a rapidly changing health care environment. It describes a range of teaching strategies useful for courses in which the teacher is on-site with students, in courses using preceptors, in simulation laboratories, and in distance education environments. This book represents the cutting edge of educational strategies, examining innovative uses of virtual reality, game-based learning, and nontraditional sites for clinical teaching. Also discussed are culturally inclusive strategies, methods incorporating current technologies, and strategies for teaching students with disabilities. Key Topics: Choosing clinical learning assignments Self-directed learning activities Case method, case study, and grand rounds Clinical Nurse Educator Examination Detailed Test Blueprint core competencies Evaluation strategies and grading for written assignments Ethical and legal issues in clinical teaching Recognizing that clinical settings require different approaches to teaching, the contributors present all the tools necessary to help educators meet the challenges of this complex learning environment.

Essential Purchase by Doody's! This highly acclaimed text provides a comprehensive framework for planning, guiding, and evaluating learning activities for undergraduate and graduate nursing students in a wide variety of clinical settings. The fifth edition updates this unequalled source of essential information for all faculty members—full time, part time, adjunct, and preceptors—responsible for clinical teaching. It encompasses current trends in health care and nursing education with expanded content on ways to maximize the clinical learning experiences of nursing students, use new technologies in clinical teaching, teach and evaluate student performance, and address ethical and legal issues in clinical teaching. Included is new content on establishing and using dedicated education units, integrating simulation with clinical education, using new technologies for clinical learning, teaching and evaluating performance in distance education, promoting interprofessional education in clinical settings, integrating Quality and Safety Education for Nurses (QSEN) in clinical courses, using standardized patients, and developing partnerships with clinical sites. Special features include guidelines for developing clinical sites, planning learning activities and assignments, observing and evaluating students in clinical practice, and using preceptors. With an arsenal of practical and creative tools to help both experienced and novice nurse educators, the text is also a valuable resource for individuals preparing to take the clinical nurse educator (CNE) exam. New to the Fifth Edition: Updated with current trends in health care and nursing education New chapter on interprofessional education and clinical teaching from a noted expert Expanded content on maximizing the clinical learning experiences of nursing students Clinical teaching and evaluating students at a distance Use of social media and new technologies for clinical teaching Ethical and legal issues in clinical teaching New content on using dedicated education units Developing partnerships with clinical staff and sites Challenges of student access to electronic health records and electronic documentation of care Strategies to promote student learning about QSEN Use of simulations and integration of simulation with clinical education Latest revisions of the CNE test plan Recommendations for service learning and international clinical learning sites Key Features: Delivers a scholarly, in-depth examination of current trends and issues in clinical education Provides evidence-based methods for clinical teaching in nursing education Includes practical exhibits illustrating best practices in clinical teaching and evaluation Highlights content in each chapter related to CNE exam blueprint Offers a vast toolkit for teaching and learning including Instructor's Manual and PowerPoint presentation

Clinical Teaching Strategies in Nursing Kathleen B. Gaberson, Marilyn H. Oermann, Teresa Shellenbarger, 2015 This fourth edition of a highly acclaimed text continues to provide a comprehensive framework for planning, guiding, and evaluating learning activities for graduate and undergraduate nursing students in a wide variety of settings. It is a respected resource for clinical faculty that provides proven strategies to maximize clinical learning.
